Frame 1
2 labels
restored + native evidence
Yellow: annotation Green: prediction at validation-selected operating threshold
Frame 2
3 labels
restored + native evidence
Yellow: annotation Green: prediction at validation-selected operating threshold
Frame 3
1 labels
native pass-through
Yellow: annotation Green: prediction at validation-selected operating threshold
Frame 4
1 labels
restored + native evidence
Yellow: annotation Green: prediction at validation-selected operating threshold
Frame 5
1 labels
native pass-through
Yellow: annotation Green: prediction at validation-selected operating threshold
Frame 6
7 labels
native pass-through
Yellow: annotation Green: prediction at validation-selected operating threshold
Frame 7
7 labels
restored + native evidence
Yellow: annotation Green: prediction at validation-selected operating threshold
Frame 8
11 labels
native pass-through
Yellow: annotation Green: prediction at validation-selected operating threshold
Frame 9
3 labels
native pass-through
Yellow: annotation Green: prediction at validation-selected operating threshold
Frame 10
3 labels
native pass-through
Yellow: annotation Green: prediction at validation-selected operating threshold
Frame 11
1 labels
restored + native evidence
Yellow: annotation Green: prediction at validation-selected operating threshold
Frame 12
2 labels
restored + native evidence
Yellow: annotation Green: prediction at validation-selected operating threshold
Frame 13
7 labels
native pass-through
Yellow: annotation Green: prediction at validation-selected operating threshold
